What is ExGen Client?

ExGen-Client is our implementation of ExGen. ExGen is a tool for generating mathematics answers. ExGen-Client is a question / answer quiz system which uses ExGen in the backend.

Getting Started

Creating an account

When you first see load www.Exgen.xyz, you will see a login screen.

The image shows a login and registration interface for ExGen. At the top, the word "ExGen" is displayed in a large, black, sans-serif font, with a teal horizontal line above and below it. Below the logo are two input fields: the first is labeled "Email" and the second is labeled "Password". Both fields have a teal border and a small teal icon on the right side. Below the input fields are two teal buttons: "Login" and "Register".

If you do not have an account yet, click "Register".
